The best way(s) to communicate with me:

Interpreter

Text

Writing

Lip Reading

Gestures

Assistive
Listening Device

When communicating with me, please:

- Get my attention first.
- Make eye contact when you speak.
- Take time to make sure I understand. English may not be my first language.
- Repeat, rephrase, or write your request down if necessary.
- Be aware that a hearing aid or cochlear implant does **not** allow me to understand everything you say.

For effective communication, I may need:

- A certified/qualified sign language interpreter for the Deaf or video remote interpreter (VRI) service.
- A communication access realtime translation (CART) for captioning conversations.
- A video phone or computer with internet service, a captioned telephone, or a cell phone for texting.
